

## Timeline of Cyber Crime

### Main Link of our Google Business Profile

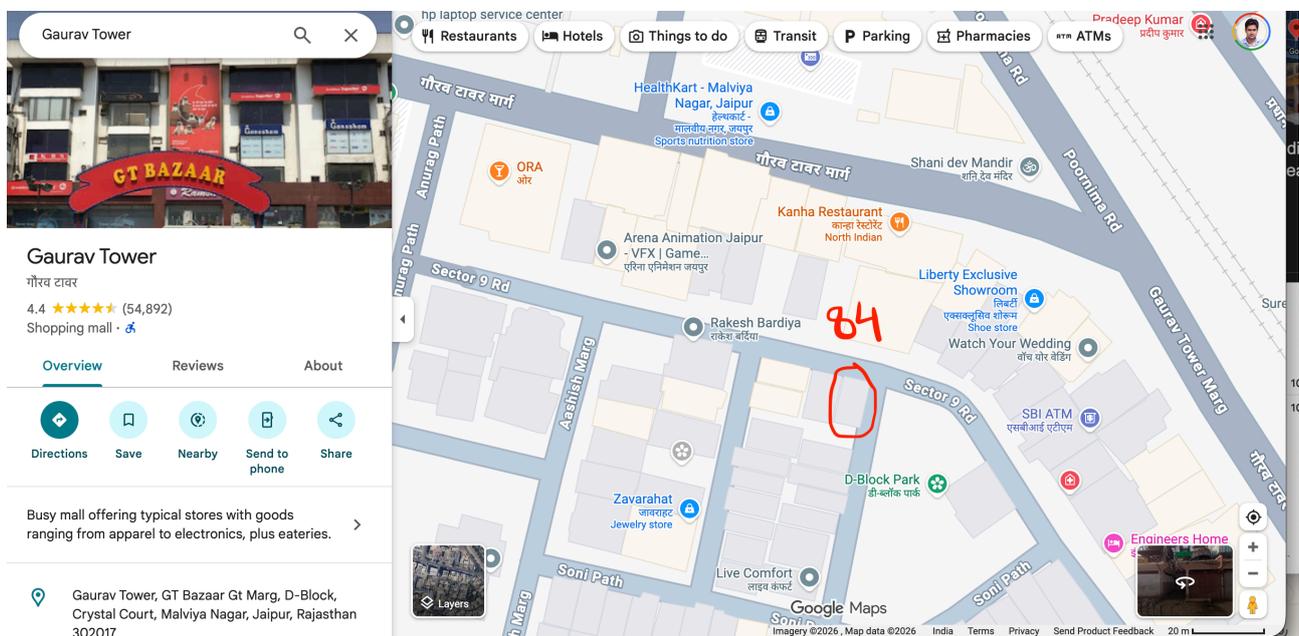

<https://www.google.com/maps/place/Youstart+Technologies+%E2%80%93+Video+Editing,+Graphic+Designing+%26+Content+Creation+Institute/data=!4m2!3m1!1s0x0:0x722165364a168260?sa=X&ved=1t:2428&ictx=111>

#### 1. Moving of office Google Maps location ( Before Dec 19, 2025 , exact date unknown)

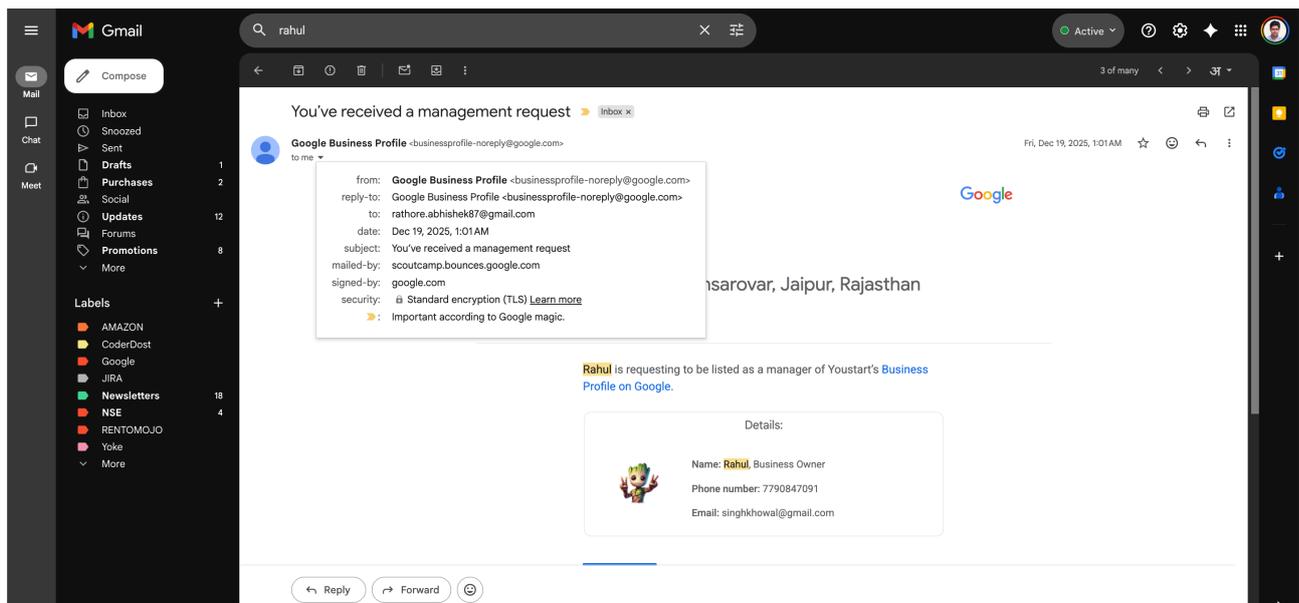

Our office (**YouStart**) location was at this plot near GT area, behind Kanha Restaurant in *Malviya Nagar, 84, D-block*. We are registered company “**YouStart education OPC pvt ltd**” and registered from **2015**. Details are available online and on MCA govt portal. We rented this location from 2017-19. Later we moved to Bangalore but marker remained

Our Google office marked was moved by scammer on some date from **below marked** location to near by gopalpura road. His institute is in Mansarovar but Google doesn't allow moving too far.

We came to know all these details later and initially thought - Someone is just playing around and hacked our google business profile - just for some marketing. But Turned out he is even running bigger scam - and even now tried to make a Similar company name “**Youstart Technolgies**” which is non-existent company but sound like us.

#### 2. Scammer Trying to get access of Google Business Profile ( Dec 19, 2025 )

I received a mail from Google to get management access of our business page But I rejected it. I don't know what happened after that?

His **email** and **phone** number is correct and you can check the TrueCaller records it points to "Satnam Singh" - **Groot Academy** Director. Which is in manasarvor Jaipur. We have collected various evidence and witnesses to confirm that he is a real person and actual man behind this. "Rahul" name here in mail might be fake.

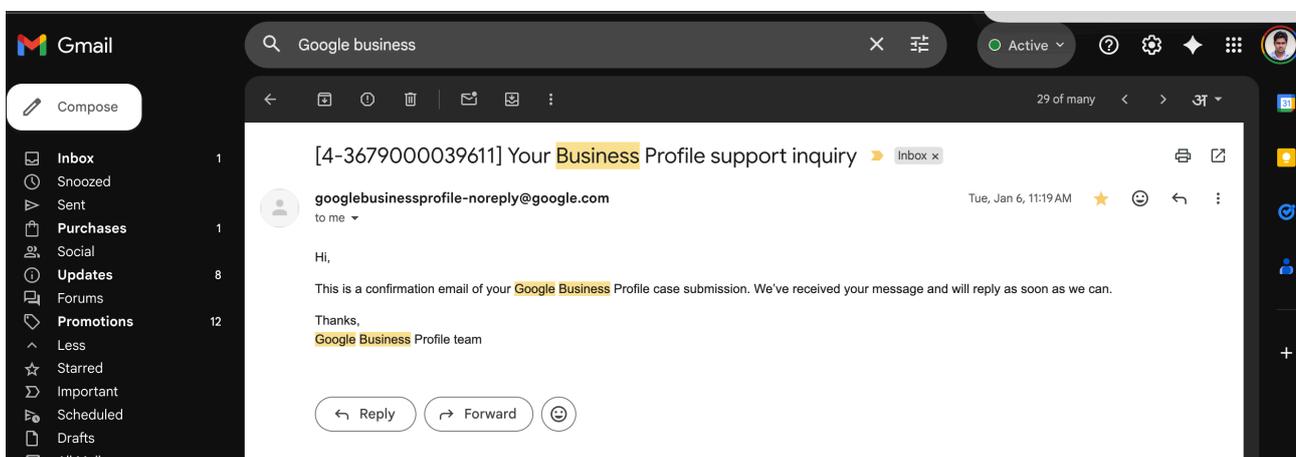

We didnt know that he got the access and get it verified by some video verification by misinfo about our company.

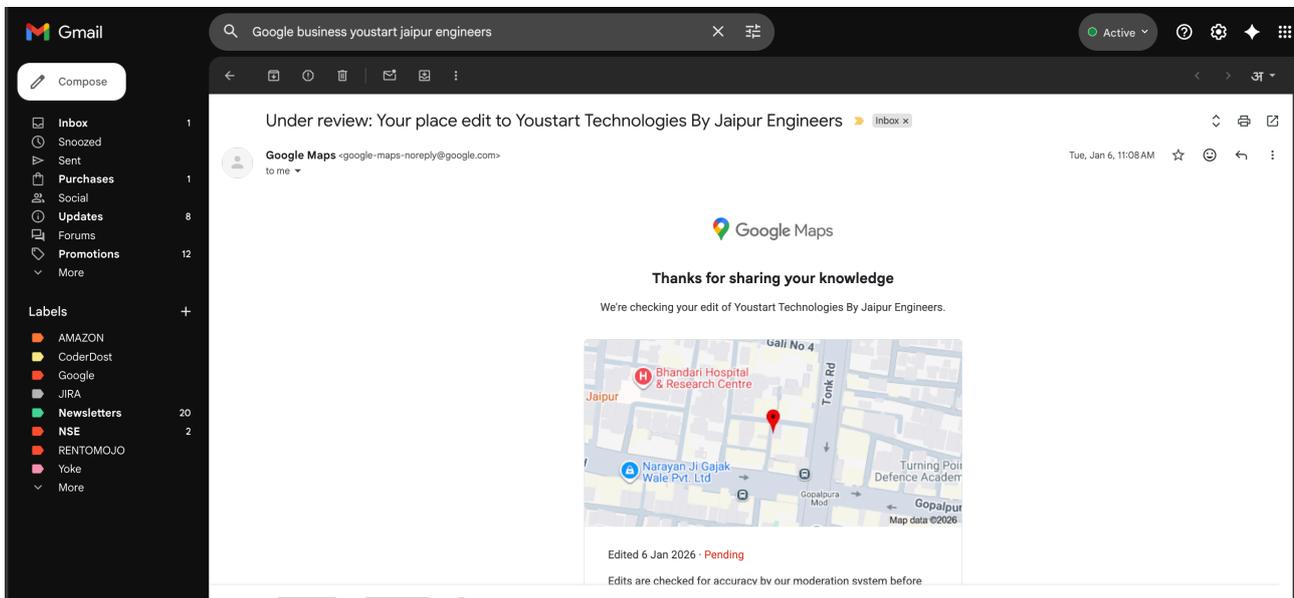

<https://grootacademy.com/>

### 3. We tried to get back access of **Google Business Profile** ( Jan 6, 2026 )

As after a few days at the start of January 2026, we noticed that the Google Maps content is being changed.

I raised request with Google business profile and Google support said that they will try to get the access back in 3 days.

The guy has changed the name from “YouStart” to “**Youstart Technologies by Jaipur Engineers**”

Also there was link to <https://jaipurengineers.com/>

Which site at that time was some freelancing site. Now they changed it to a IT training site.

Interestingly phone number of these sites are just number for collection where they collect your number - and you get callback from Groot academy next day. Or they directly get you to Groot academy reception.

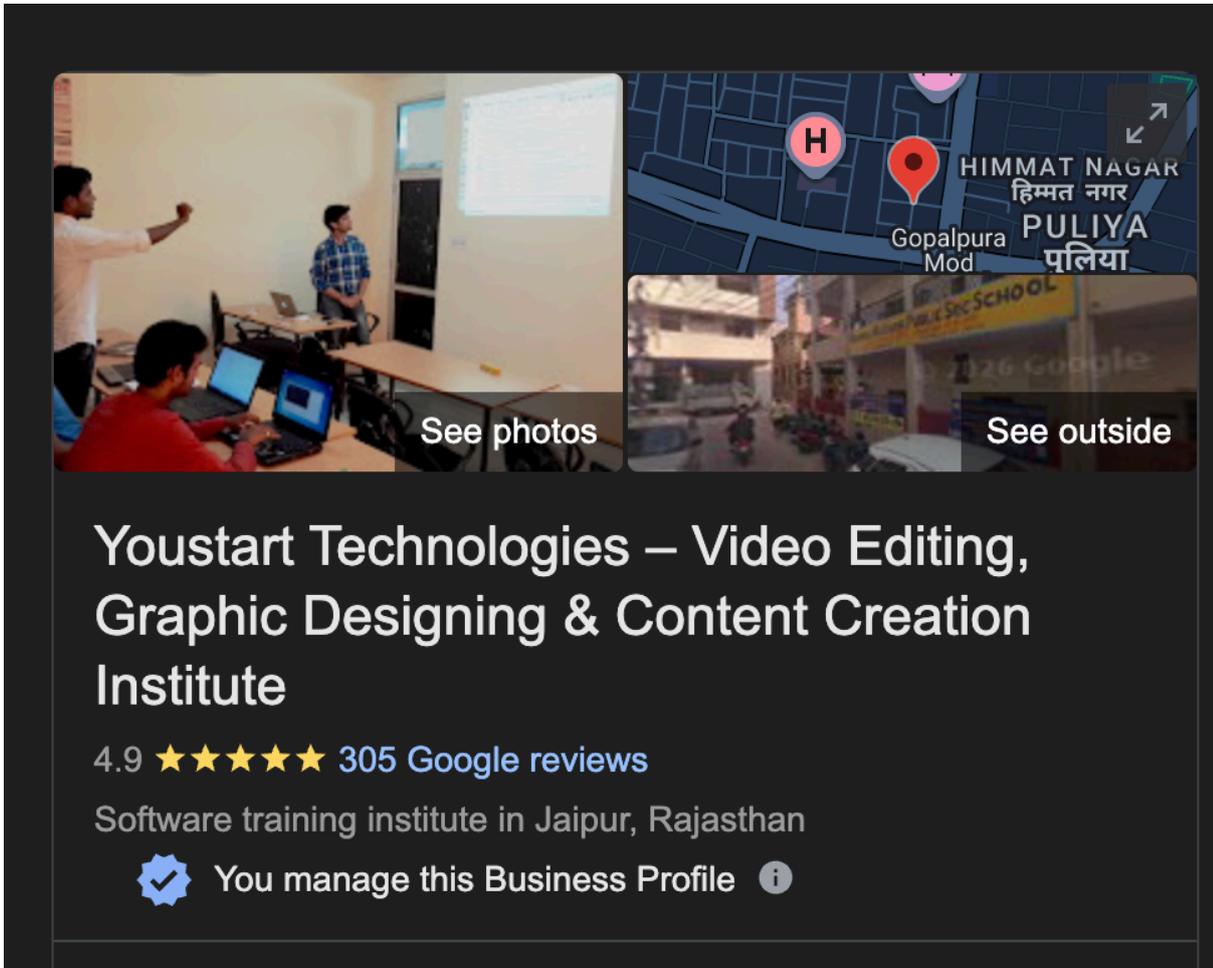

#### 4. Google Places disappeared and We felt it was deleted (around 14 Jan 2026)

Now when we tried to type “youstart” in Google nothing came on Google map. Our old listing and reviews were gone. But at-least we were relieved that some scammers is not misusing the name.

#### 5. Resurgence of Scammer ( Mar 7, 2026)

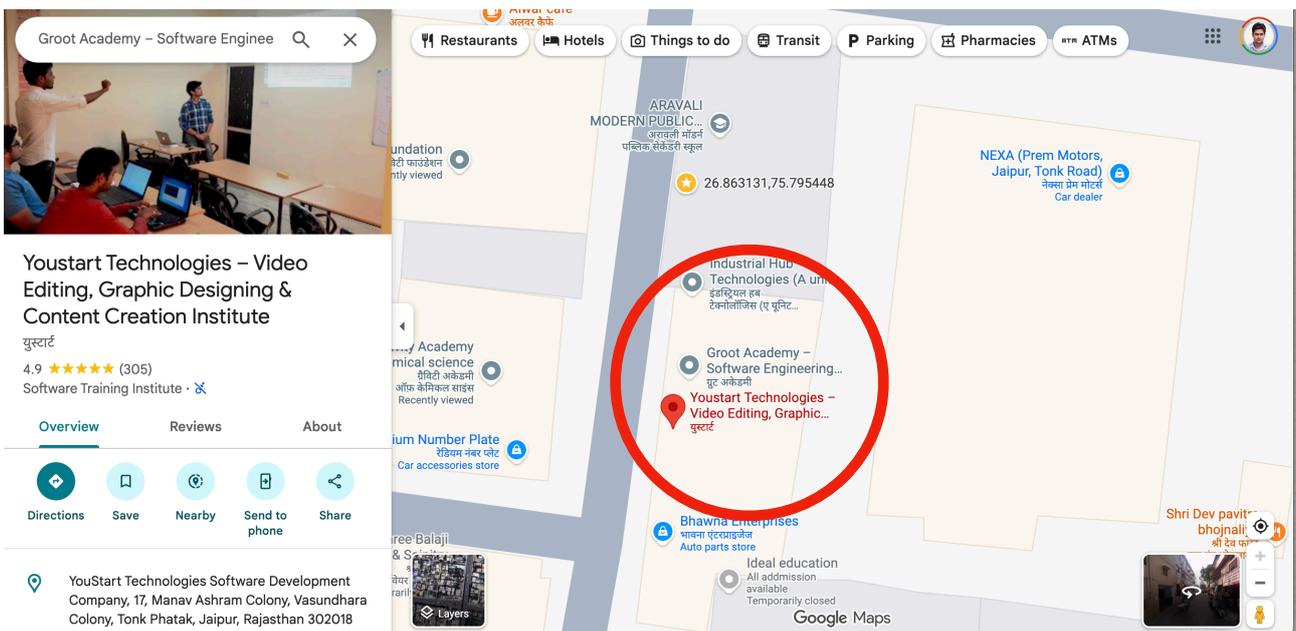

We didn't check google maps for few weeks. Then someone from our past team reported to me on whatsapp that our company listing on Google map is fishy.

I am still being shown as manager but I can't edit or do anything as my access is somehow restricted. The scammer changed name again “**Youstart Technologies**”.

## 6. Linking Scammer to Groot Academy ( Mar 11, 2026)

Now the location of **Youstart** is near Gopalpura mode and **Google Street view** show some coaching area.

Same [google street view](#) is of **Groot Academy** also. Hence confirming again that both entity are verified by same person. This is **3rd proof** after matching phone numbers to satnam singh - and matching phone number of groot academy.

## 7. Final verification via phone calls ( 7 - 11 march, 2026)

We called from our phone numbers whose call recordings are available.

In **both recordings** - phone numbers were either belonged to Site **Jaipur Engineers** site or **Groot Academy**. **Notice that we didn't call the number on Youstart Google Business Profile**. We called "Groot Academy" but on call we said - **if they are YouStart and they confirmed clearly - yes we are same business.**

They also confirmed name of director "satnam singh" and asked us to fix meeting with him.

However we didn't go as Lawyer suggested not need to do that much effort of physical confrontation.

These call records are available.

## 8. Misrepresenting Business ( March 1st and 2nd week , 2026)

Not only guy has Hijacked the Google business profile he made a fake site .

<https://youstarttechnologies.com/>

And interacting with our old customers and employees and students - via review replies. All these people are real reviews - so many of them are getting emails

Response from the owner a day ago

Thank you Rahul Vyas for your valuable feedback and for recommending YouStart Technologies, Jaipur. We are glad that you found our institute helpful for learning programming from beginner to advanced level. At YouStart Technologies – IT ...

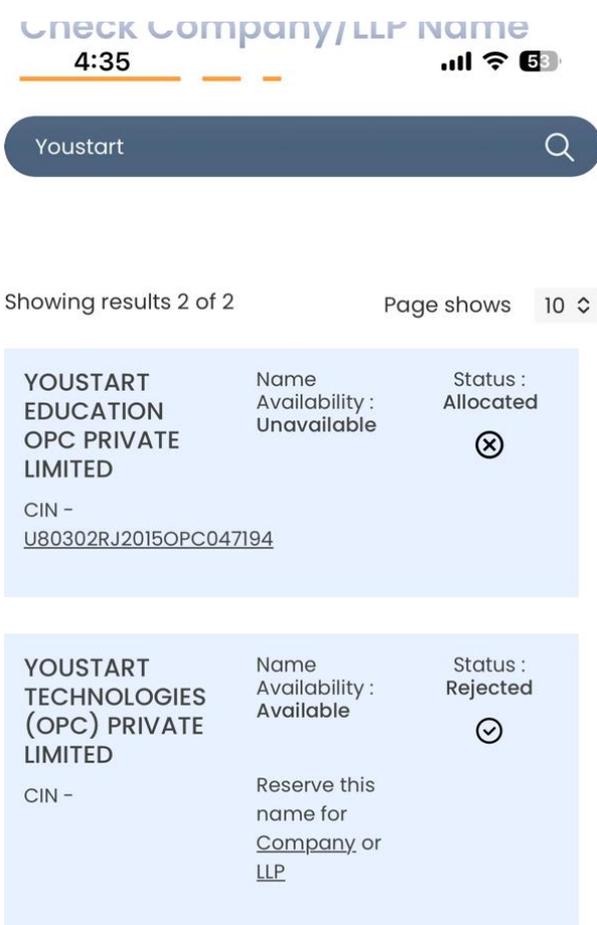

More comments and review can be checked on Youstart Map location

## 9. Legal Notice : Sent via my Lawyer on 11 March, 2026.

There are **more fake sites** and **numbers** we investigated but we are not going to share those as we are not worried about their business practices.

Also we have some more video recordings and images of some suspects which also I don't feel might be required to be leaked. As our only concern is to avoid our LEGAL name in this scam.

10. **Govt MCA portal Info** - there is only **1 YouStart** in India. Other name **Youstart technologies** is also "**Rejected**" - is in-fact our company only - whose name was not approved in 2018 due to similar names. We have that proof also.
